Subject: School Improvement Grant-Mobridge-Pollock School District

The Mobridge-Pollock School District would like to request a change/amendment to our SIG award at Freeman-Davis Elementary and Upper Elementary School.

We would like to recommend moving \$1,500 dollar from professional development category to the supplies category at Freeman Davis Elementary and at Upper Elementary.

The request for this change is due to a need in adding four additional "Do the Math" modules to classrooms. Freeman-Davis Elementary is in need of two number sense modules. Upper Elementary is in need of one number sense module and one addition/subtraction (level A) module.

The professional development cost for the "Do the Math Implementation" was estimated to cost \$3,000 per school. Professional development has occurred and it only cost \$1,500 per school. This leaves each school with \$1,500 apiece in professional development. By transferring this money into supplies it will allow the staff members to move forward with the "Do the Math Implementation" at a much more rigorous pace.

If you have any questions please feel free to call.

Sincerely,

Tim Frederick
Superintendent
